COMPANY BIO:

Zingat.com is a new generation real estate platform dedicated to empowering consumers with data, integrity and knowledge for all their property needs and requirements, and connecting them with the best local real estate professionals. Shareholders of Zingat include Dogus Group, one of the largest private sector conglomerates in Turkey, and PropertyFinder Group (PFG), largest real estate portals network of the Middle East.

REIDIN, is the world's first emerging markets only real estate data analytics and information company. REIDIN helps real estate professionals access relevant and in depth property data and information in a timely and cost effective basis using its proprietary big data platform, indices and analytics solutions covering both real estate and retail markets in countries such as Turkey and UAE.
